RFK Jr says Fauci and Bill Gates should be investigated for criminal wrongdoing over Covid

- **The antivaxxer nephew of JFK is calling for a probe over the handling of Covid**
- **He accused Big Pharma, Bill Gates and the media of deliberately stoking fear**
- **The lawyer and law professor has been a vaccine skeptic for years**

Robert F. Kennedy Jr says **Bill Gates** and **Anthony Fauci** should be investigated for criminal wrongdoing over Covid, as he claimed big pharma companies are deliberately orchestrating fear to make billions of dollars.

The antivaxxer lawyer, 67, who is the nephew of former president John F. Kennedy, Jr., accused politicians, the media and big corporations of conspiring to 'execute the controlled demolition of American constitutional democracy'.

The conspiracy theorist, who last week wrongly claimed that Covid vaccines had killed more people than all vaccines 'over the past 30 years', also said those who criticize the government are censored on YouTube.

RFK Jr was speaking to **Donald Trump**'s former fixer Michael Cohen, who was released from home confinement Monday after serving a three-year term of house arrest and federal prison.

He told Cohen's podcast **Mea Culpa** that Gates, who he alleges is funding media to promote his own views, should face a probe over Covid, although he fails to mention why.

RFK Jr was speaking to Donald Trump's former fixer Michael Cohen, who was released from home confinement Monday (pictured outside federal court)

Cohen asked: 'Based on your findings, do you believe that Dr. Fauci and Bill Gates should be investigated for criminal wrongdoing?'

RFK Jr replied: 'Yes.'

He then added: 'Of course. I mean, I think Fauci's policies, 80 per cent of the people who died from COVID should not have died.

'We have the biggest body count in the world because of his policies. We have 4.2 per cent of the global population. we had 14.5 per cent of the Covid casualties.

'Why is that a success? Of course he should be criminally prosecuted because what he did was clearly, clearly demonstrably purposeful.

'And I can prove that in front of a jury. And if you read my book, just the first chapter, you will see that indictment laid out clear as day.'

He also claimed Anthony Fauci should be held responsible for the high death rate in the US during the pandemic

RFK Jr, who is the third child of Bobby Kennedy, claimed that billionaires are colluding with media, corporations and politicians to make themselves richer.

He said: 'The most important productive strategy or the big talk around the oligarchs and the intelligence agencies and the pharmaceutical companies who are trying to impoverish us and obliterate democracy, their strategy is to create fear and division.

'So orchestrate fear, divide Republicans from Democrats and blacks from whites and get a lot of infighting so nobody notices that they are making themselves billions and billions, while they impoverish the rest of us and execute the controlled demolition of American constitutional democracy.

'My father told me that partisanship is poison and it's intellectually dishonest. It's tribalism. It's bad for democracy.'

The lawyer added he has had to turn to alternative media because traditional news outlets will not air his opinions.

Robert F. Kennedy, Jr. claimed COVID-19 vaccines have killed more people than all other vaccine combined while speaking to Fox News's Tucker Carlson

He said: 'I'll talk to anybody. I'll talk to the biggest idiot in the world and I'll talk to criminals if they're the only way that I can get my message out.

'Anybody who wants to criticize pharmaceutical products or government or question government policies cannot do that on a normal network TV, social media. They're thrown off.

'If you're a person who has suffered a vaccine injury, and you talk about that on Facebook, you will be evicted. You're not, you will never get on a TV program to talk about that.'

Kennedy's comments come after he spouted similarly wild claims on Tucker Carlson last week.

He cited figures from the Centers for Disease Control's Vaccine Adverse Event Reporting System (VAERS), a self-reporting tool that the **CDC** itself says may 'contain information that is incomplete, inaccurate, coincidental, or unverifiable.'

Kennedy was banned from Instagram in February 'for repeatedly sharing debunked claims about the coronavirus or vaccines.'

'There have been 17,000 deaths reported to VAERS from the Covid vaccines,' Kennedy, a professor at Pace University, said Monday.

'And that's more, in the last eight months, than all vaccines - the billions and billions of vaccines - combined over the past 30 years.

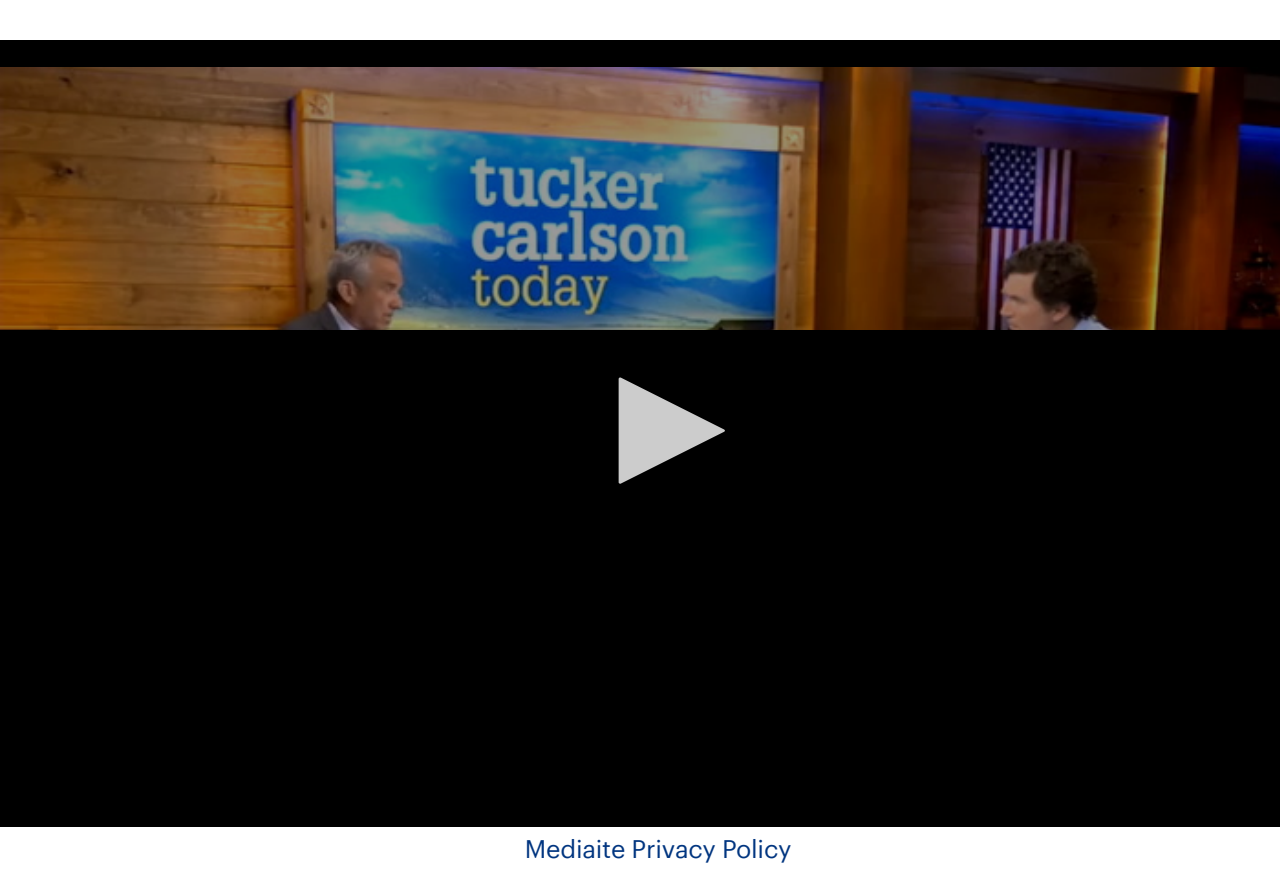
'This vaccine appears to be killing more people than all vaccines combined.'

The CDC **says** COVID-19 vaccines are safe and effective and recommended for everyone aged 5 or older 'as soon as possible.'

Dr. Pradheep J. Shanker, a radiologist from Fort Lauderdale, Florida, has warned that making assessments on the safety of COVID vaccines based on VAERS data is 'not accurate' in an interview with **Mediate**.

'VAERS was intended to cast a wide net to capture any possible or potential complication that even has the remotest possibility of being related to the vaccine,' Dr. Shanker said.

'Any adverse event is considered reportable. This ranges from direct symptoms, such as fevers or hematomas, to events such as death from blunt trauma in a car accident (which, of course, is highly unlikely to be related to the vaccine).



Mediaite Privacy Policy

+7

Kennedy cited figures from the CDC's Vaccine Adverse Event Reporting System, which encourages patients to self-report side effects and may contain unverifiable information

'With hundreds of millions of doses, the likelihood of some percentage of those people dying (especially among the elderly) after vaccination is a certainty.'

Kennedy, a lifelong Democrat, has expressed anti-vaccine views long before the COVID-19 pandemic.

He previously lobbied Congress to allow parents who do not want to vaccinate their children exemptions from state mandates to do so.

His organization, Children's Health Defense, says it does not oppose vaccines, but is dedicated to questioning their safety.

A heading on a recent post read, 'Vaccine Mandates: An Erosion of Civil Rights?'

The group, which was originally named the World Mercury Project, promotes claims generally not accepted by medical experts that mercury in vaccines can cause autism.

At a public event in February 2017, Kennedy alleged that vaccines had 'caused an autism epidemic.'

His siblings, Kathleen Kennedy Townsend and Joseph P Kennedy II, and his niece, Maeve Kennedy McKean, slammed Kennedy in an op-ed in **Politico Magazine** in 2019, citing the rise of measles in the US.

© AP +7

Kennedy is the nephew of former president John F. Kennedy, left, and the son of former US attorney general and senator from New York Robert Kennedy, second from left

'Robert F Kennedy Jr - Joe and Kathleen's brother and Maeve's uncle - is part of this campaign to attack the institutions committed to reducing the tragedy of preventable infectious diseases,' they wrote.

'He has helped to spread dangerous misinformation over social media and is complicit in sowing distrust of the science behind vaccines.'

Kennedy is married to actress Cheryl Hines of Curb Your Enthusiasm, who met him through her on-screen husband Larry David, according to their **New York Times** wedding announcement.

The vaccine skeptic suffers from spasmodic dysphonia, a lifelong condition with an unknown cause that causes a person's voice to spasm.

He is the nephew of JFK and the son of Robert, or Bobby, Kennedy, a former US attorney general and senator from New York.

JFK and Bobby were both assassinated in separate and notorious incidents.
